

Daily Covid19 Update to SLG – 13th December 2021

The Charles Vincent Daily Safety Huddle Sit-Rep contains a wide range of data and is available on the Senior Leadership Group Teams Folder.

A summary of six key pieces of information relating to hospital inpatients, numbers of patients in Intensive Care, numbers of care homes in outbreak, workforce pressures, vaccination programme and PPE daily stock levels is set out below;

1. Covid19 positive (+) and Post-Covid19 Hospital Inpatients

Today, **55** Covid19+/clinical Covid patients are in our hospital wards and there are **20** patients post-14 days, in hospital. In total, **75*** Covid19 related patients remain in hospital. Today's number in hospital equates to 20% of the total at the peak of Surge 3 on 20th January (272). The graph displays both current and post-Covid19 patients.

** Due to the potential for individual patients to be identified where there are less than 5 patients likely to be escalated the exact number will not be provided.

3. Community

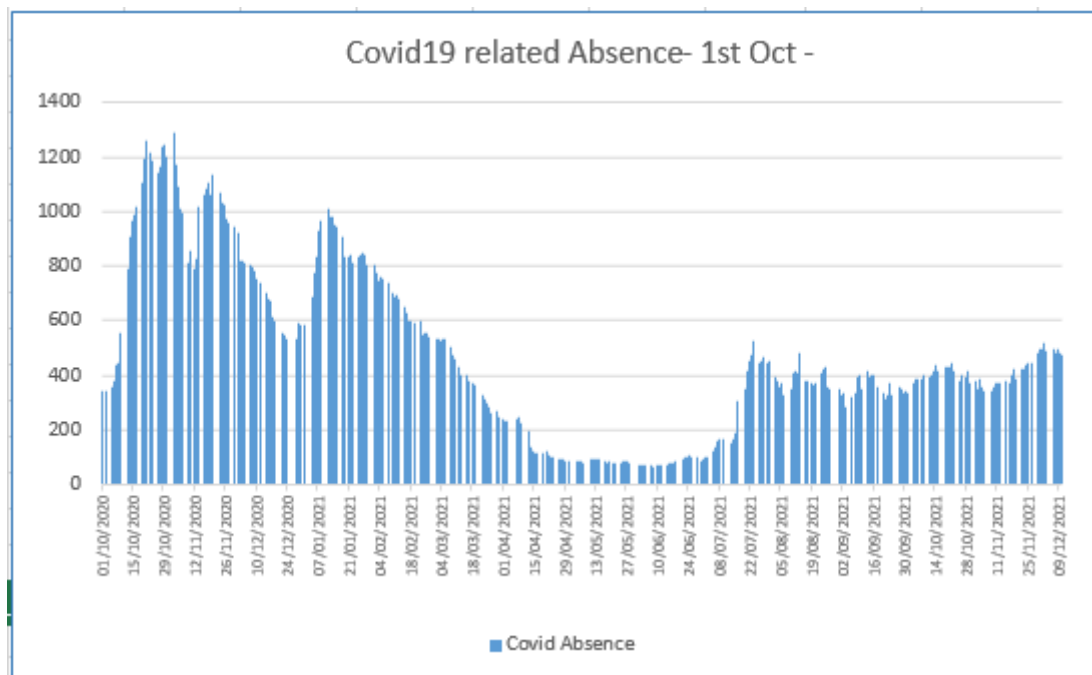

We have 89 care homes in the Belfast Trust area, caring for over 2,200 residents.

As at Sunday 12th December, we have **10** care homes with a confirmed outbreak – **9** in amber status and **1** in red status (a decrease of 2 in amber since the previous report).

4. Workforce

As at Friday 10th December 2021, **477** staff are off work with Covid19 disease related issues or vaccine side effects, which is significant given that on top of these absences we have ongoing workforce challenges because of high vacancy levels within the Trust. The same day **last week**, we had **487** staff off work with Covid19 disease related issues or vaccine side effects. Today's figure represents a decrease of 2% on the same day last week.

Please Note: Data reported Mon-Fri only

5. Vaccination programme

The Trust vaccination programme commenced before Christmas 2020, over the Christmas period and throughout 2021.

The table below shows the vaccination activity for the most recent 7-day period, and the cumulative total so far. Nursing and Care home residents, wards and day care facilities and staff, Walk-in clinics, Covid19 Vaccination centre numbers and wasted dose numbers are provided. Figures for Covid-19 booster doses and Winter 2021/22 Flu vaccinations are also now included. The daily number of vaccinations carried out averaged over 1,130 in April, 860 in May, 830 in June, 570 in July, 640 in August, 377 in September, 950 in October and 750 in November. The total number of vaccinations is over **283,000**. Over 17,000 vaccinations have been carried out at the mobile unit.
