## **Under-30s and Covid-19**

**Month by month since March 2020, how many under 30s have been admitted to ICU directly BECAUSE of covid. Not admitted for something else and then testing positive, but were admitted to ICU solely because of covid complications.**

March 2020:	< 5
April 2020:	< 5
Oct 2020:	< 5
Dec 2020:	< 5
April 2021:	< 5
Aug 2021:	< 5

Use of < 5 (less than five): We are unable to provide an exact figure - exempt from release under section 40(2) of the FOI Act - as this could make patients personally identifiable. Disclosure would constitute a breach of the principles of the General Data Protection Regulations 2018.

**On admission to hospital, is a patients 'vaccination status' being recorded anywhere on their notes?**

Within Critical Care the vaccination status is recorded on ICCA (electronic care record for Critical Care). This information is not always available upon admission.
