Pompe Disease

Enquiry:

Q1. Within your trust, how many patients currently have a diagnosis for:

- Pompe Disease (ICD10 Code E74.02)
- Pompe Disease (ICD1 Code E74.02) Infantile-onset (Patients Diagnosed before age 1)

Q2. Of the patients above, how many patients have been newly diagnosed within the past 3 months for:

- Pompe Disease (ICD10 Code E74.02)
- Pompe Disease (ICD1 Code E74.02) Infantile-onset (Patients Diagnosed before age 1)

Q3. How many patients (including any patients whose treatment is on hold due to COVID-Shielding) are being treated at this point in time with:

- Myozyme (Alglucosidase alfa)
- Nexviazyme (Avalglucosidase alfa)
- AT-GAA

Response:

PAS does not record when a patient is diagnosed with a condition. We would only be able to provide information on patients admitted who have that condition.

We have run a report for the previous 2 calendar years (2020 and 2021) and can advise there were Zero patients that have had this as a primary diagnosis.

Total patients admitted with Pompe Disease in 2020 and 2021 = Nil.
