Subject: New Heart Conditions Diagnosis

Request

Please supply the statistics for myocarditis, pericarditis and new other heart condition diagnoses for the following time periods:-

2018
2019
2020
2021
2022 to date

Please breakdown by the following age groups

5-11 years
12-15 years
16-17 years
18-29 years
30-64 years
Over 64 years

Clarification

Please provide admissions information only and interpret 'others' as heart failure, heart attack, hypertension and coronary thrombosis.

24 May 2022

NB: This report is run based on patients discharged who have a diagnosis of conditions asked. We cannot determine when a diagnosis occurred

	Condition	5-11 years	12-15 years	16-17 years	18-29 years	30-64 years	Over 64 years	Total
Y2018	Myocarditis				1	2		3
	Pericarditis	1	5	1	21	63	29	120
	Heart Failure	1			3	121	599	724
	Heart Attack (inc Coronary Thrombosis)				2	607	697	1306
	Hypertension	7			3	37	30	77
	Total	9	5	1	30	830	1355	2230
Y2019	Myocarditis					1	1	2
	Pericarditis		4	2	9	64	33	112
	Heart Failure	2			3	93	566	664
	Heart Attack (inc Coronary Thrombosis)				3	620	706	1329
	Hypertension	2			3	46	33	84
	Total	4	4	2	18	824	1339	2191
Y2020	Myocarditis				2			2
	Pericarditis	1		3	5	51	30	90
	Heart Failure			1	5	86	579	671
	Heart Attack (inc Coronary Thrombosis)				2	472	445	919
	Hypertension	2		1	3	29	18	53
	Total	3		5	17	638	1072	1735

24 May 2022

Y2021	Myocarditis				1			1
	Pericarditis			1	10	56	33	100
	Heart Failure				2	97	515	614
	Heart Attack (inc Coronary Thrombosis)				3	448	479	930
	Hypertension		3	1	3	34	38	79
	Total		3	2	19	635	1065	1724
Y2022 (Jan-Mar)	Myocarditis				1	1		2
	Pericarditis	2			3	6	10	21
	Heart Failure					18	142	160
	Heart Attack (inc Coronary Thrombosis)					115	126	241
	Hypertension				1	4	6	11
	Total	2			5	144	284	435
