Final Safeguarding Report on Muckamore Abbey Hospital

The Belfast Trust website states a "final safeguarding report" was shared with families in December 2018

[Final Safeguarding Report on Muckamore Hospital shared with families of patients | Belfast Health & Social Care Trust \(hscni.net\)](#)

What template was used for the "final safeguarding report " ?

'A Review of Safeguarding at Muckamore Abbey Hospital – A Way to Go' (November 2018) report was the outcome of an independent SAI Level 3 investigation chaired by Margaret Flynn. The review had a clear defined Terms of Reference. As the review was not focused on an individual ASG investigation nor a SAI into an individual patient, it was presented in a report format and not in the SAI template.

Was there a "final safeguarding report " and a SAI level 3 report shared with families?

As indicated on the Belfast Trust website the report was shared with families of patients in Muckamore Abbey Hospital in December 2018.
