Carbon Reduction / Public Health

Request

As part of my study into HSC / NHS and their drive to reduce their carbon footprint, please can you assist me by sharing the monthly invoice totals paid to Canon PLC.

For the avoidance of doubt this should be the monthly cost as in cost per page as well as the leasing costs of the capital.

My hope is to gain an understanding of how much carbon can be reduced balanced against the cost of the solutions.

Response

Total Paid to Cannon in 21/22

2021	Net Value
April	77,452
May	109,140
June	167,549
July	73,117
August	78,627
September	48,846
October	53,604
November	134,130
December	75,230
2022	
January	57,708
February	40,907
March	32,991
TOTAL	949,299

The above table shows the nett value paid to Canon for financial year 21-22. We cannot confirm what these all relate to. This information would not be centrally held.
