Cross Border Treatment for Vitrectomy Eye Surgery

Request

I'm just curious if your hospital provided cross border treatment.
I am waiting on a vitrectomy eye surgery

Response

If patients wish to make contact with the Ophthalmology Service they will determine which waiting list the patient is on and will advise on the surgical options that could be made available to them.

A cross boarder scheme which allowed patients to avail of surgery outside of NI with an element of cost reimbursement ceased 21 September 2022, this did not have Trust involvement.
