Real time Continuous Glucose Monitors

- 1. Can you please advise how many Real time Continuous Glucose monitors are funded by the trust for Paediatrics at present.**

None

- 2. Can you please break this figure down into the individual CGMs being funded by the Trust (ie Dexcom, Medtronic Guardian 4)**

There are no CGMs funded

- 3. Can you please advise how many Real time Continuous Glucose monitors are funded by the trust for Adults and give a breakdown of which CGM it is that is being funded (ie Dexcom or Medtronic Guardian 4)**

6 adults are funded for continuous glucose monitoring by the Trust: Medtronic Guardian x 5 and Dexcom x 1

- 4. Can you please advise are there any plans to fund more Dexcom G6 or G7 or Medtronic Guardian 4 in the future and if so when is this likely to take place both for children and adults and a breakdown for each CGM G6/7 and Guardian 4.**

NICE recommend that all patients with Type 1 Diabetes should be offered continuous glucose monitoring (CGM) most suited to their needs. At present all patients with Type 1 Diabetes in Northern Ireland can receive certain types of CGM but these do not include Dexcom G6, G7 or Medtronic Guardian 4. At present there is no commissioned process for trusts to prescribe these particular sensors in Northern Ireland.

- 5. How many CGMs were funded for children in the last year.**

None

- 6. How many children attend the Trust with Type one diabetes.**

193 patients with Type 1 Diabetes
