MRI asset counts

I have the MRI asset counts published by the NIDC for England. However, I wanted to ask how I could get this/similar data (number of MRI machines) under the Freedom of Information Act from NHS Northern Ireland?

Belfast Trust currently has 8 MRI scanners across the service, not all of these are capital assets as some are covered under MES (Managed Equipment Service) Contract:

- Belfast City Hospital: 2 MRI Scanners - 1 Trust owned, 1 provided under MES contract
- Mater Infirmorum Hospital: 1 MRI Scanner, Trust Owned
- Musgrave Park Hospital: 2 MRI Scanners, both Trust owned
- Royal Belfast Hospital for Sick Children: 1 MRI scanner Trust Owned
- Royal Victoria Hospital: 2 MRI scanners, both provided by MES Contract
