

WHY AM I HERE TODAY?

We sent you a letter about your ongoing care and treatment with the Neurology Service at Belfast Trust, under the care of Dr Michael Watt.

As you know, concerns were raised with the Trust regarding the care and treatment provided by Dr Watt to a small number of patients.

You are here today, so that we can reassure you, your family and the Trust that you are receiving the best possible care.

WHAT WILL HAPPEN AT THE CLINIC TODAY?

Today you will have an appointment with a Consultant Neurologist from Belfast Trust and they will review your care and treatment and see if:

- 1) your diagnosis is correct,
- 2) a proper management plan is in place for you, and
- 3) medicines prescribed for you are appropriate.

If you have any questions, please speak to a member of the Trust Service Management team who are present at the clinic today.

WHAT WILL HAPPEN NEXT?

When you are seen the Consultant may order further tests and arrange a follow up appointment. These will be organised as soon as possible.

We hope that you are reassured and there will be no changes to your management plan. We will keep you updated at every stage.
