EORI Number

Enquiry:

Please could you let me have the EORI Number (Economic Operators Registration and Identification number) for The Royal Victoria Hospital Belfast.

Response:

The information requested is not required. You do not require the EORI number of HSCNI in order to make deliveries to the Belfast Trust. Where Belfast Trust buys goods, our Terms and Conditions operate on the basis of Delivery Duty Paid, so the supplier needs to use their EORI number as the duties are their responsibility.

Letter and attachments provided by PaLS:

Dear Supplier,

Please find attached two presentations, to assist you with your responsibilities and obligations in moving goods from GB to NI and GB to EU.

The presentations included are:

- 1. GB-NI trader readiness, and includes links to websites for you to obtain further information*
- 2. GB-EU trader readiness*

To aid the removal of any confusion, you do not require the EORI number of HSCNI in order to make deliveries to us. The NI Public sector shares one EORI number and this is due to how we are registered for VAT, so the more important details for you to record within your declarations are the name and delivery address of the actual customer.

I hope this information is helpful.

Regards

PaLS
