Treatment of COVID patients

1. How many Covid patients (confirmed by Hospital PCR Test) admitted to the Belfast Trust were treated with the High-Flow nasal Ventilation and CPAP ventilation protocol?

The information requested is not collated centrally and discharge codes would not give sufficient info either. An extensive manual trawl of patient notes would be required. We estimate that compliance with this request for information would exceed the appropriate costs limit. Under Section 12 of the Freedom of Information 2000, the limit has been specified as £450 and represents the estimated cost of one or more persons spending 18 hours in determining whether we hold the information, locating, retrieving and extracting this information.

2. For those patients treated with CPAP ventilation protocol, what was the recommended number of hours to be administered using CPAP in a 24 hour period?

The information requested is not collated centrally and discharge codes would not give sufficient info either. An extensive manual trawl of patient notes would be required. We estimate that compliance with this request for information would exceed the appropriate costs limit. Under Section 12 of the Freedom of Information 2000, the limit has been specified as £450 and represents the estimated cost of one or more persons spending 18 hours in determining whether we hold the information, locating, retrieving and extracting this information.

3. What was the recommended protocol for number of hours for the Administration of High-Flow nasal Ventilation and CPAP combined in. 24 hour period?

The information requested is not collated centrally and discharge codes would not give sufficient info either. An extensive manual trawl of patient notes would be required. We estimate that compliance with this request for information would exceed the appropriate costs limit. Under Section 12 of the Freedom of Information 2000, the limit has been specified as £450 and represents the estimated cost of one or more persons spending 18 hours in determining whether we hold the information, locating, retrieving and extracting this information.

4. How many Covid patients (confirmed by Hospital PCR Test), admitted to the Belfast Trust, that were treated with the High-Flow Ventilation and CPAP protocol developed pneumonia?

The information requested is not collated centrally and discharge codes would not give sufficient info either. An extensive manual trawl of patient notes would be required. We estimate that compliance with this request for information would exceed the appropriate costs limit. Under Section 12 of the Freedom of Information 2000, the limit has been specified as £450 and represents the estimated cost of one or more persons spending 18 hours in determining whether we hold the information, locating, retrieving and extracting this information.

5. How many Covid patients, (confirmed by Hospital PCR Test), admitted to the Belfast Trust, that were treated with the High-Flow Ventilation and CPAP protocol developed pneumonia and subsequently required to be placed on a Ventilator?

The information requested is not collated centrally and discharge codes would not give sufficient info either. An extensive manual trawl of patient notes would be required. We estimate that compliance with this request for information would exceed the appropriate costs limit. Under Section 12 of the Freedom of Information 2000, the limit has been specified as £450 and represents the estimated cost of one or more persons spending 18 hours in determining whether we hold the information, locating, retrieving and extracting this information.

6. How many Covid patients, admitted to the Belfast Trust, that were treated with the High-Flow Ventilation and CPAP protocol survived and were discharged home?

The information requested is not collated centrally and discharge codes would not give sufficient info either. An extensive manual trawl of patient notes would be required. We estimate that compliance with this request for information would exceed the appropriate costs limit. Under Section 12 of the Freedom of Information 2000, the limit has been specified as £450 and represents the estimated cost of one or more persons spending 18 hours in determining whether we hold the information, locating, retrieving and extracting this information.

7. How many Covid patients, (confirmed by Hospital PCR Test), admitted to the Belfast Trust, that were treated with the High Flow Ventilation and CPAP protocol, and then required a Ventilator, survived and were discharged home?

The information requested is not collated centrally and discharge codes would not give sufficient info either. An extensive manual trawl of patient notes would be required. We estimate that compliance with this request for information would exceed the appropriate costs limit. Under Section 12 of the Freedom of Information 2000, the limit has been specified as £450 and represents the estimated cost of one or more persons spending 18 hours in determining whether we hold the information, locating, retrieving and extracting this information.

8. How many Covid patients, (confirmed by Hospital PCR), admitted to the Belfast Trust were administered Tocilizumab?

The information requested is not collated centrally and discharge codes would not give sufficient info either. An extensive manual trawl of patient notes would be required. We estimate that compliance with this request for information would exceed the appropriate costs limit. Under Section 12 of the Freedom of Information 2000, the limit has been specified as £450 and represents the estimated cost of one or more persons spending 18 hours in determining whether we hold the information, locating, retrieving and extracting this information.

9. How many Covid patients, (confirmed by Hospital PCR), admitted to the Belfast Trust that were administered Tocilizumab survived and were discharged home?

The information requested is not collated centrally and discharge codes would not give sufficient info either. An extensive manual trawl of patient notes would be required. We estimate that compliance with this request for information would exceed the appropriate costs limit. Under Section 12 of the Freedom of Information 2000, the limit has been specified as £450 and represents the estimated cost of one or more persons spending 18 hours in determining whether we hold the information, locating, retrieving and extracting this information.

10. How many Covid patients, (confirmed by Hospital PCR), admitted to the Belfast Trust that were administered High-Flow nasal Ventilation plus CPAP plus Tocilizumab survived and were discharged home?

The information requested is not collated centrally and discharge codes would not give sufficient info either. An extensive manual trawl of patient notes would be required. We estimate that compliance with this request for information would exceed the appropriate costs limit. Under Section 12 of the Freedom of Information 2000, the limit has been specified as £450 and represents the estimated cost of one or more persons spending 18 hours in determining whether we hold the information, locating, retrieving and extracting this information.

11. How many Covid patients, (confirmed by Hospital PCR), admitted to the Belfast Trust were administered Hydroxychloroquine or Ivermectin?

The information requested is not collated centrally and discharge codes would not give sufficient info either. An extensive manual trawl of patient notes would be required. We estimate that compliance with this request for information would exceed the appropriate costs limit. Under Section 12 of the Freedom of Information 2000, the limit has been specified as £450 and represents the estimated cost of one or more persons spending 18 hours in determining whether we hold the information, locating, retrieving and extracting this information.
