

10 October 2023

## Extremely and very preterm births and deaths

1. For the year 2022/23, please provide information showing the number of preterm births that were:

i. Extremely preterm (before 28 weeks); and

ii. Very preterm (between 28 and 32 weeks).

2. Disclose the number of births in each category that was planned.

3. Disclose the number of babies in each category not recorded as having died.

Infants Born RJMS 1 April 2022 – 31 March 2023	Births Total	Births Planned	Babies Not Recorded as having Died
i. Extremely preterm (before 28 weeks); and	45	31	23
ii. Very preterm (between 28 and 32 weeks). 28 – 31 + 6 weeks	58	35	56

4. Please disclose any high level documents you may have relating to the costs associated with extremely preterm births for the year 2022/23.

We do not hold these documents.
