Hello

I am a staff member who works in Oaktree Manor and we have had no chef or kitchen assistants all week. I'm working today and there's no food in the kitchen at all. There's been no food orders out in all week either.

There no food so we are just trying to make anything, If someone came now to look you would see it. They are taking care assistants off the floors to cook and we all are angry because there's no food and nobody knows what they are doing!!!
