Capital Expenditure

Financial year	Capital expenditure in secondary care pharmacies £k	Capital expenditure in primary care General Practice: £k
19/20	210	80
20/21	203	889
21/22	188	691
22/23	96	1,058
23/24	0	608
	697	3,326

All premises under Trust ownership.

There is no specific capital spend on Primary Care Community Pharmacies. There are Trust capital schemes involving the procurement of IT hardware/software and schemes relating to building fabric that may have included primary care or secondary care pharmacies and primary care GP practices but the detail of location of every element of expenditure has not been recorded and would require a sizeable review of expenditure to locate, which would certainly exceed 18 hours.

We estimate that compliance with this request for information would exceed the appropriate costs limit. Under Section 12 of the Freedom of Information 2000, the limit has been specified as £450 and represents the estimated cost of one or more persons spending 18 hours in determining whether we hold the information, locating, retrieving and extracting this information.
