

13th June 2024

Social Workers and Caseload

1.) As of March 31st, 2024, how many social workers were employed by the trust?

The Trust collect workforce data for SPPG on an annual basis and the date of the most recent report is the 31st December 2024. The number provided below is therefore accurate for 31st December 2024 and we do not have the data at the point of 31st March 2024.

2.) As of March 31st, 2019, how many social workers were employed by the trust?

As above the Trust do not have the data for 31st March 2019 but have provided data as of 31st December 2019.

3.) As of March 31st, 2024, how many cases were being looked after by social workers at the trust?

Provided

4.) As of March 31st, 2019, how many cases were being looked after by social workers at the trust?

Provided

5.) Of those cases on March 31st, 2019 and March 31st, 2023, how many of those were high risk?

We are unable to provide. The definition of what constitutes a high risk case is variable and there is no mechanism to collate this data across the different service areas.

Services	1. As of March 31st, 2024, how many social workers were employed by the trust? (as at 31.12.23 – all bands)	2. As of March 31st, 2019, how many social workers were employed by the trust? (as at 31.12.19)	3. As of March 31st, 2024, how many cases were being looked after by social workers at the trust?	4. As of March 31st, 2019, how many cases were being looked after by social workers at the trust?	5. Of those cases on March 31st, 2019 and March 31st, 2023, how many of those were high risk?
