Note: Disclosure of the costings both at procurement and maintenance have been withheld as considered commercially sensitive,

[Section 43: commercial interest](#)

Section 43 of the Act sets out an exemption from the right to know if:

- the information requested is a trade secret, or
- release of the information is likely to prejudice the commercial interests of any person. (A person may be an individual, a company, the public authority itself or any other legal entity).

The outcome of the above public interest test is that it would not be in the public interest to provide the costings both at procurement and maintenance. In reaching this decision to withhold some of the information requested, the Trust has considered fully its commitment to ensuring openness and transparency, where reasonably practicable, in all its activities.
