New Maternity Building

I would like a full breakdown of ALL issues relating to the new maternity hospital?

Also please provide the independent interim report that was mentioned at the Stormont health committee yesterday by the Trust Chief Executive?

Belfast HSC Trust has chosen to release the conclusions and recommendations sections of the draft interim report from our independent expert regarding the water systems on the new Maternity Hospital, as attached. Owing to legal privilege and issues concerning commercial sensitivity, the remaining sections of the draft interim report cannot be issued at this time.
