Statistics on Doctors Working in Zone B, RVH

QUESTIONS:

Under the above legislation, could I have a breakdown of the number of doctors that work in Zone B in RVH, on a shift basis, per day.

Are there any hours in a day where there are no doctors on cover? This is for acute care, and general medicine.

For example Monday 24th of February, from 16.00, how many doctors were on shift in Zone B?

What time did their shifts finish and what time did the other doctors start the new shifts?

Is there a gap between the shifts?

What time does General Medicine close Zone b?

RESPONSE:

Zone B, RVH Operational times: 08:00 to 23:30
