Belfast Trust Carers Network

We are currently establishing a Carers Network for unpaid and family carers. The Network will involve carers to work with the Trust to shape and deliver our carer priorities.

Carers involved in the Network, are asked to attend 4 workshops annually. To support carer involvement we will:

- provide an induction to help you to get involved;
- offer on-going support and training;
- reimburse out of pocket expenses.

Further information is available in the attached recruitment pack or online or by contacting the Carer Support Service at CarerSuppSvcs@belfasttrust.hscni.net or telephone 02895042126.

Service areas are asked to share the opportunity to join the Carer Network with carers.
